

## Global Network for our Club

Stuttgart, 31st October 2020

### We are looking for: volunteer "Ambassadors" worldwide

#### Explanation:

We on the Board of the Club believe that a global view, especially of the EU and Europe, is urgently needed. A look at the world map clearly shows that Europe, in comparison to the world's big players (USA, CHINA, India, Brazil, etc.), without closed appearance, will hardly play a role anymore. The Corona crisis lately, has clearly shown how dependent we are on each other. Being informed about the thoughts and actions of others, in a global context, is therefore becoming increasingly important in order to ensure that Europe will retain its future-oriented character and is able to play a key role on the world stage.

#### Requirement profile "Ambassador":

- is recommended and proposed by a member of the club
- comes from an EU member state or a non-European country
- speaks German or English
- is available to members of the club on request with information and tips
- does not have to be a member of the club itself
- is politically interested
- may be a student, a newcomer to the profession or an "old hand" in his or her field of activity

#### A call to all members:

Can you spontaneously think of someone who could be considered for such an ambassadorial role?

Could you contact this potential ambassador?

Important: we will only add a contact person into our global network when the potential "ambassador" has given a clear green light on this.

In our club, Dr. Hartmut Welck, is responsible for all such "Amabassadors" as well as the "Global Network". Please address all questions and suggestions to him: [hartmut\\_welck@yahoo.de](mailto:hartmut_welck@yahoo.de)

Further information can be found on our homepage under the heading „Sinnvolle Projekte“ under [nachwuchskraefte-fuer-europa.com](http://nachwuchskraefte-fuer-europa.com)

We would be pleased if as many countries as possible could be represented by an ambassador in our network.

With best regards and good luck in the search for suitable candidates!

Dr. Hartmut Welck
